

BRITTANY DUNBAR

Hey there!

Home is where the heart is, and lucky for me I get to work and live in my favorite place on Earth: Historic Ellicott City, Maryland. There's something charming about the old mill town that feeds my soul and warms my heart. I get to wake up each day surrounded by a strong community that has been through so much. My street is lined with history, nature, good people and good food: what else could a girl need? My photography style is very similar to the personality of my town: vibrant, timeless and full of life.

My passion is capturing the most precious moments of our lives; the raw emotions of our journeys in their purest form. My goal as your photographer is to help tell your story, and to help you relive your memories every time you look at the art we create together!

Did we just become best friends?!

There are so many wonderful photographers in the world, and for you to pick me means we must be meant to be! I'm quirky, I'm passionate and I believe in love over hate. When I don't have a camera in hand, I love traveling, trying new foods, enjoying local beer and wine, camping, concerts, running, hiking, volunteering and advocating for mental health awareness, LGBTQ+ and women's rights.

We may be a good match if...

- Colors found in nature speak to your soul
- You enjoy making fun wherever you go
- You love living in the moment
- You don't mind my corny jokes
- Candid moments make you feel like someone is cutting onions (yes, I cry at every wedding!)
- You want your photo memories to stand the test of time (because do you even remember where your first smartphone is with all of those pics you took on it?)
- You value the investment of good art and don't want cookie cutter photos

Bonus points if...

- You believe that love is stronger than hate
- You pay it forward every chance you get
- You're down for creativity
- You want to go get pizza & a beer with me right now. Then doughnuts.

Client Love

"Brittany is a fantastic photographer! Not only were her shots of my wedding gorgeous but her personality and charisma were just as great! She captured my special day beyond what my dreams could have imagined. She came prepared for the rain which ended up giving us a break to get some amazing photos on the fairly untouched patch of snow she scouted at my venue to give me the photos I envisioned! My son adored her and she captured his personality to a T with her work!! I cannot wait to work with her on future projects for my family! You will not be disappointed when you book with Brittany!!"

"I can not say enough positive things about Brittany and the work she does!! When we first met, she immediately felt like a close friend, and she made it so easy to relax and open up. She was very professional and yet so much fun at our summer wedding. She captured every aspect of our wedding, from the details before everyone arrived, to the ceremony, formal pictures, and lots of great candid shots of the party. We have SO many photos to cherish now, and seriously they are ALL so good!! Thanks again Brittany Dunbar Photography, we are so happy we found you!!
